1.0 Factual evidence showing how the Project utilizes existing ROW and what additional land rights will need to be acquired

The Project will be constructed entirely within existing ROW on property either owned in fee by the Applicant or on property which the Applicant has easements for transmission construction. The Applicant has site control of all station locations with the exception of the 345 kV Pleasant Valley Substation which is owned by Consolidated Edison.

2.0 Information on the use of any advanced technologies that are proposed to apply to facility design, construction or operations
